Giulia Pignati

Vancouver-based Product Designer | Digital Experience Specialist

Work Experience

Logrock / Product Designer

MAR 2022 - APR 2026, USA

Sole designer across 3 simultaneous squads at a B2B tech startup, partnering with PMs and engineers across web and mobile. Navigated a full company pivot in 2023 without loss of delivery quality.

- Redesigned the lead qualification flow for the PX platform, reducing qualification time by 93% (from 30min to 2min) and ensuring 100% of leads validated before form submission, directly improving sales efficiency for insurance producers.
- Led end-to-end UX across the sales, quoting, and compliance pipeline, from field shadowing and user interviews to high-fidelity UI and developer handoff.
- Maintained and evolved the product design system across a pivoting product, ensuring consistency across multiple squads and delivery cycles.
- Integrated AI tools into the design workflow to accelerate prototyping, reduce iteration cycles, and validate concepts earlier without engineering dependency.

Luby / Product Designer

SET 2021 - MAR 2022, BRAZIL • US CLIENT

Sole designer on a US-based digital banking platform within a software consultancy. Managed client relationship directly after the PO departed early.

- Built strong client trust through consistent delivery quality, contributing to contract renewal and expansion, making the project one of the consultancy's top 2 accounts and leading to the hiring of 2 additional team members.
- Conducted on-site research and usability testing to align product decisions with real user needs.
- Collaborated with cross-functional teams to introduce and document usability best practices across the platform.
